Notes on blue fox feeding by
Anderson

Eat all kinds of fish raw,
dried & cooked (boiled):
Salted fish mostly thoroughly
freshened. Excuse feeding
of raw fish, or salted fish, does
not give good result as
they need a varied diet. A
monotonous diet makes them
nauseous & they kill their ygs.
Cooked corn meal, oatmeal
or used, also meat scrap
cooked. Raw, cooked &
baked clams
They also like seal meat, &
beef meat good especially
in spring.
Pieces of salmon with bones
on are good feed.
Best results by feeding every
evening.

carried the person across the
water to the beach on other
